

LET'S HELP SUPPORT DR. PERRY'S RESEARCH ON COUGARS!

DR. TRAVIS PERRY IS CONDUCTING SURVEY AND MONITORING WORK, AS WELL AS RESEARCH ON COUGAR POPULATIONS ON AND AROUND THE EXPANSIVE ARMENDARIS AND LADDER RANCHES IN SOUTH-CENTRAL NEW MEXICO. THESE COUGAR POPULATIONS ARE OF PARTICULAR INTEREST GIVEN THEIR EFFECTS ON A REINTRODUCED POPULATION OF DESERT BIGHORN SHEEP AND OTHER VALUABLE BIG GAME SPECIES. FUNDS RAISED THROUGH REDEEMING RETURNABLE CANS AND BOTTLES WILL BE PUT TOWARDS A NEW GPS RADIO COLLAR NEEDED FOR THIS PROJECT.

The NYS Zoo is proud to support in situ conservation efforts such as Dr. Perry's work.
